Seminar good platform to share info on latest security challenges, says Bukit Aman CCID director

KUALA LUMPUR: The seminar on Cybercrime and Substance Abuse Consciousness is the best platform to exchange information on the latest security challenges, says Datuk Seri Ramli Mohamed Yoosuf.

The Bukit Aman Commercial Crime Investigation Department (CCID) director said he also shared cybercrime statistics, which showed an increase each year.

"Both cybercrime and substance abuse must be given serious attention.

"The seminar, which was aired live on the Royal Malaysia Police (PDRM) Facebook page, could be a reference for society," he told reporters on the sidelines of the Defence Services Asia (DSA) and National Security (NatSec) Asia 2024 on Tuesday (May 7).

Comm Ramli said through such a seminar, the police hoped that it would create more awareness of the state of technology-based commercial crime.

"Society should be more vigilant so that they do not become victims of online scams," he said.

As of April 28, an average of 85 commercial crimes per day were recorded this year.

A total of 10,106 cases were recorded involving RM866.2mil worth of losses between Jan 1 and April 28.

Comm Ramli said 4,880 investigation papers were successfully prosecuted during the same period.
